Does Your Child Need a Second Dose of the COVID-19 Vaccine?

If your child received a first dose of the Pfizer COVID-19 vaccine at our May 19 on-campus clinic, **they will be due for their second dose of the Pfizer vaccine on or after next Wednesday, June 9.** The CDC recommends the second dose of Pfizer be given no later than 42 days after the first dose was administered, which means your child should receive their second dose no later than June 30.

A Few Important Points to Remember...

... for tomorrow's move-out process:

- Student rooms must be cleaned out entirely prior to departure. Surfaces should be wiped down, the floor should be swept or vacuumed, and no trash should be left in receptacles. (There has been time set aside for packing and cleaning during this past week.)
- **Silver Lake Road remains closed for construction on the bridge.** If you are on driving to campus, you will be required to take a significant detour to get to

Noxontown Road. This detour, as well as traffic in Middletown, may add 10-15 minutes to your travel time.

2021-22 School Calendar

Commencement 2021

All (5,000+!) Commencement photos have been uploaded to [this album in Vidigami](#)! Other Senior Week event photos can be found [here](#).

At Commencement, Tad honored Director of Health Services Annette Rickolt for her outstanding, nonstop work for SAS over the last 18 months. Elizabeth Roach was our Commencement speaker and gave a moving talk on her 40-year relationship—first as mentor, then as friend, then as family—with Stacey Duprey '85. At the close of the ceremony, Chair of the Board of Trustees Scott Sipprelle '81 recognized Tad and Elizabeth's service to St. Andrew's with the traditional school medals, and a gift of two of the iconic red SAS Adirondack chairs.

Meanwhile, Elsewhere on Campus...

Scenes from the last few weeks at SAS, presented in no particular order.

Tad and Elizabeth's last classes at St. Andrew's.

A few snapshots from Senior Retro on the Front Lawn. (Honestly, we have no idea what is going in most of these photos.)

Senior Wall carving in Founders!

Finals Week...

The Class of 2022 gathered for the first time as the oldest grade in the school after Commencement...

... and then took the traditional post-Commencement rising-seniors dip in the pond.

Earlier this month, the entire school gathered on the Front Lawn for an equity workshop designed by the Student Diversity Stewards. Guided by a theme of "Under the X-Ray: Examining Ourselves and Community Stress Fractures," students and faculty explored the impact of microaggressions on our community, and developed strategies for what to do when we commit, witness, or find ourselves on the receiving end of microaggressions. We rounded out the afternoon with ice cream, of course.

A few photos from Project Zero, our year-end campus clean-up initiative.

Girls tennis celebrated their seniors a few weeks back...

... as did girls soccer...

... and girls soccer also joined girls lacrosse for an end-of-season practice. Athletes broke out into two teams (Saints vs Griffins) and competed in soccer for half the practice, then in lax. "It was awesome," notes girls varsity lacrosse Head Coach Jenny Carroll.

Girls crew celebrated the christening of their new boat, "The Class of 2020," in honor of last year's seniors who missed their final season on the pond.

Model UN held their final conference of the year—an "ad hoc" crisis committee meeting in which delegates didn't know the topic or their assigned position until they entered the room—in early May.

Ms. Reddy's senior tutorial enjoyed dinner in her backyard.

The Honsel Advisory enjoyed a s'mores and "burn your regrets in the bonfire" function...

... and a Honsel v Honsel Pictionary challenge function earlier in May.

The Berl Advisory enjoyed a final advisory dinner on the grass docks.

The Ferguson Advisory (minus two members) enjoyed a s'mores function down by the Boat House.

Meanwhile, at the Honsel fire pit, III Formers enjoyed their own s'mores party!

Moss Dorm gathered in the Dining Tent for a joint birthday party for Zoe Gray '23 and Olivia Sheppard '23.

With no prompting, Bridget Schutt '23 and Ellison Baker '23 spent over an hour cleaning the entire Moss dumpster area earlier this week. "What does it mean to be a St. Andrian?" asked Dean of Honor Emily Pressman when she noticed their efforts. "It means seeing something that needs to be done, something that will serve the good of others, and doing it—even though no one asked you to, even though you don't have to, even though it's possible no one's going to see you doing it." (But someone did, in this instance!)

The Spirituality & Mysticism Club took a group selfie after their final meeting of the year.

Just hanging around...
(a roundup of student photos submitted throughout the spring)

We Leave You With This

Tad and Melba, who are both retiring this June, have one last chat in the Roach tent.
We love you, Tad. We love you, Elizabeth. And we love you, Melba!

Have a wonderful summer!
